

Life Planning in CLSNP: Shaping Infinite Possibilities for Students

The Careers and Life Planning Team organizes a variety of career planning activities for students, equipping them to face new environments and challenges. In addition to on-campus events and talks, students also visit various institutions and organizations for meaningful and engaging tours, which broaden their horizons.

Diverse Experiences

Besides talks and visits, the Careers and Life Planning Team encourages students to step out of their comfort zones and participate in external activities to expand their perspectives. For instance, students are encouraged to join business case competitions, internships and other opportunities that provide a platform to showcase their talents.

Industry Recognition

This year, the team joined the CLAP@JC program, using the Hong Kong Benchmarks for Career and Life Development as a framework to provide a comprehensive career planning experience for different stakeholders. The framework includes:

1. A stable and visible career and life development policies
2. Professional competencies and leadership
3. Learning from multiple pathways information
4. Address the needs of each student
5. Student engagement and co-creation
6. Personalized guidance for developing career roadmaps
7. Linking curriculum learning to career and life development
8. Meaningful encounters with the workplace
9. Meaningful encounters with further and higher education
10. Parental engagement and support.

Collaborative Efforts

The team frequently establishes partnerships with various stakeholders to collaborate on students' careers and life planning. Our school regularly invites community leaders from different sectors to share their past experiences and career development journeys as an inspiration for students. In addition, we participate in the Funding Scheme for Youth Life Planning Activities set up by the Youth Development Commission, assisting students in understanding market trends and industry prospects in Hong Kong, as well as enabling them to make informed decisions about their future education and career paths.

Personalized Counseling

Through personalized counseling, we provide tailored support based on student's needs and abilities, helping them identify, establish, and review their educational and employment goals, needs, and challenges. The team develops various plans to offer appropriate support on career and life planning according to the needs of the students.
